The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

79 Dearborn Ave., Chicago, Nov. 7.
I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

COAST CLIPPINGS.

On Ruby Hill there are three dogs to every human being.

J. P. Brown, the banker of Camptonville, Cal., has made an assignment for the benefit of his creditors.

The State vote of California cast last week is over sixty thousand short of that cast at the Presidential election.

General Wm. Irvine, the well-known attorney, died very suddenly Sunday night in San Francisco. His death is attributed to heart disease.

A Mormon named Smith, and his wife, cut the throat of their 13 year-old boy, at Santa Ana, Los Angeles, county recently, under divine inspiration, as they claimed.

The Nevada County, Cal., Narrow Gauge Railroad 8 per cent. bonds are now quoted at $1 15 in San Francisco. At the time the road was built they were sold at 80 cents on the dollar.

The Nevada *Transcript* says: No one expresses any sympathy for Dorsey and Patterson, the cold blooded murderers of Cummings. Even a suffering dog has friends, but these culprits have none. They showed no mercy, and no mercy should be shown them.

The cold wave has extended to all parts of the Pacific coast, and the last four or five nights have brought heavy frosts. On Sunday night the thermometer registered 22 deg. above zero in Grass Valley.

The majorities on the State ticket in Eureka county, as given by the *Sentinel*, are as follows, with two or three small precincts to hear from that will not change the figures, unless to add one or two to the Democratic side: Cassidy, 363; Adams, 252; Laughton, 162; Hallock, 40; Dormer, 202; Sadler, 371; Merrill, 137; Young, 25; Harlow, 205; Leonard, 135.

ALF. CHARTZ PARDONED.

The State Board of Pardons late yesterday afternoon, granted a full pardon to Alf. Chartz, and restored him to all the rights of citizenship. Chartz, it will be remembered, was convicted of murder in the second degree, in killing Ed. Ricker, a conductor on the Eureka & Palisade road, in 1878, and committed to the State Prison August 12 of that year, to serve a life sentence as a penalty for his crime. He was the proprietor of the *Daily Evening Republican*, a paper published at Eureka at the time of the trouble. He had a nice business and was making money, but public feeling was so much against him, that the patronage of the paper dropped off to a ruinous degree and poor Chartz was obliged to give up his interest in the paper to defend himself at the trial. A young wife and a little home was all he had left after his conviction. Shortly after his incarceration in his cell at the prison his wife gave birth to a child, and while she was still in child-bed, his little family was robbed of their home by fire. Left without a home Mrs. Chartz came to Carson to see her condemned husband, and for the first time to show him the first of their union. Chartz was very proud of his babe and nearly frantic to think that they must be deprived of his support. After her visit Mrs. Chartz returned to Eureka to make her living sewing; but true to the old saying that "it never rains, but it pours," death snatched their little one from the mother's breast. Chartz's sister, Mrs. S. E. Carlton, was all this time hunting new evidence to prove her brother innocent of the crime for which he had been convicted. No sister's love ever shone brighter than did the affection Mrs. Carlton showed for her unfortunate brother. She presented his case to the Board of Pardons several times and made for him an eloquent appeal, but the Board refused to give Chartz his freedom. His case has attracted much attention, and it is gratifying to his friends to see him once more in a position to comfort and support his wife and sister. Chartz will prove to the world that he is not a bad man in any sense, and after his bitter experience will most surely take the place of a man and keep it.

HARD TO PLEASE.

The Virginia *Chronicle* and Matt Canavan are engaged in a war of words over the result of the election. The *Chronicle* says the present Democratic county officers, with Mr. Canavan at the head, are responsible for the Republican victory in Storey county. Canavan replies in a card in the *Enterprise* and gives Mr. McCarthy the following rap: "From the job in Esmeralda to the outrage in Nye; the fight in Ormsby and the Waterloo in Storey, where the opposition (including Marye, McCarthy and all the purse-hunting horde who were arrayed against me) did not amount to a decent skirmish line. McCarthy, who could not be elected to any convention from this county, sneaked in on a proxy from another county to our State Convention to subserve his own selfish ends, and then, after the election is over, undertakes to read a lesson to the Democrats as to how I should be treated. Is that not good (?) of him? Where is his decency? He was in Eureka when the Democratic State Central Committee was appointed and when I was honored by being made its Chairman. Why did he not speak out against me then—at the beginning of the campaign? Oh, no! He is more at home in a back office than in a Democratic Convention where he must take thrust for thrust and where he has no chance to correct his copy and send forth his false inuendos and cowardly slurs."

Inasmuch as Washoe is the banner Republican county in the State, would it not be well for the Legislature to take a Washoe county man to fill the office of Warden of the State Prison the coming two years?

The "Herald" on the Chinese Problem.

NEW YORK, Nov. 15.

The *Herald* has the following editorial: Our special dispatches from San Francisco report a demagogical attempt of the Collecter of that port to exclude all Chinamen whatever from landing there, whether they are merchants or all laborers; but Judge Hoffman is not a demagogue, and when the case was brought before the U. S. District Court, the Collector was frustrated and rebuked, as he deserved to be. The fact, however, that the chief officer of the Federal revenue service on the Pacific coast should volunteer to put a gloss of his own upon the Chinese immigration statute, with the design of increasing its stringency, is significant of the spirit of the community to which he panders. Being a politician, he probably counts the rebuke of the court as of slight moment in comparison with the increase of popularity he has gained among the hoodlums. It deserves remark that the Chinese question is rapidly approaching a new phase of which New York merchants will do well to take timely warning. Pacific coast politicians, having bulldozed the Federal Government so successfully in the matter of Chinese immigration, are working themselves up to demand supplementary legislation of a prohibitory character at no distant day in the matter of Chinese imports. They asked Congress to forbid the importation of Chinese labor in 38 States in order to protect three of them—California, Nevada and Oregon, whose united population is less than that of this city—from its competition on American soil, and Congress yielded to the request and has shut Chinese laborers out of New York because they are unwelcome in San Francisco. Now they are growing fearful that the excluded Chinamen will soon become successful competitors, although restricted to working on Asiatic soil, and accordingly they are preparing to petition Congress further to shut Chinese manufacturers out of the whole country, New York included. San Francisco newspapers are looking forward to the time when Chinamen at home will manufacture for themselves, and so cheap that they will not only supply their own markets but ours as well, unless Congress comes to the rescue with their customs duties which will eclipse the most extraordinary provisions of the present tariff.

The President Out of Sorts.

WASHINGTON, Nov. 14.

The President is very much out of sorts. One of his minor ills is a letter addressed by two Massachusetts Senators to Secretary Folger giving collector Worthington a severe hauling over the coals for helping Democrats to elect their Governor. The relations of Worthington and his newspaper to Butler are such that the truth of the charge is highly probable. Another letter, more irritating to the President, because more personal, is from Messrs. Herrick, Kerr and Bliss in regard to ex-Senator Spencer. During the star route trial the government counsel, it is well known, sent the President a letter setting forth that Spencer, a government official, was wanted as a government witness, but could not be found, and was conferring a great favor on the defense by keeping out of sight. No attention has been paid to the letter. The time for the second trial draws near and Spencer has not yet been found. He is wanted very much. The government counsel sent another letter to the President, calling his attention to all the facts in Spencer's case. Of course, the President does not exactly like to have his attention called to the matter. It intimates that he wants to protect Dorsey. Now, the President wants every violator of the law punished, but he is not very anxious to see a useful Republican statesman, secretary of the National Committee, the man whom he has trusted as the saviour of Indiana, behind the bars of a prison.

Bald Heads in Front.

The latest libel about the comet is that it is one of the bald-headed kind, and is hurrying up toward the sun to get a front seat where it can have a good look at the transit of Venus. This morning about 2 o'clock, before the snow-clouds gathered, his tail seemed to reach half way down the heavens. It is well known that when Venus displays her charms bald-headed men are always found in front.

POTATO HASH.

Genealogy of the Bright-Eyed Washoe Spud.

The potato has a curious history. It is a native of the elevated valley of the Andes in Peru and Chili, and is found as far north as Mexico. It was taken to Spain soon after the discovery of the American continent, and was cultivated in gardens as a botanical curiosity. The tubers being small and not edible in its wild state, it attracted no attention. In 1586 Sir Walter Raleigh introduced it into England, and is credited with bringing it from Virginia; but of this there is no evidence. Its cultivation in the cool, moist Summers of Ireland soon developed large tubers, which were found to consist largely of starch. A

SUCCESSFUL EXPERIMENT

Was made in the use of tuber as food, but this was met and combatted by a number of learned men, and several works were written and published to prove its poisonous character. It belongs to the great Nightshade family (*solanceæ*), all of which are poisonous. This indictment was true, but they had not yet learned that a poisonous plant may bear a fruit or a tuber not only harmless, but very nutritious. This prejudice prevented the use of the tomato till within the last forty years. The truth is, both these vegetables, being of Nightshade family, are poisonous in stem, leaf and flower, but this property does not extend to the tuber of the one nor the fruit of the other. While on this subject it is proper to say that solanine,

THE POISONOUS PRINCIPLE

Of this family, is sometimes developed in the potato, even to a dangerous extent. If the tubers, while growing, are uncovered, so as to expose them to direct sunshine, they will assume a green appearance, and become poisonous from the presence of solanine. The same effect in a minor degree is produced in the sprouting of potatoes. If these are used in cooking they should be sliced and placed in cold water an hour or two before being cooked. Otherwise sprouted potatoes are unwholesome food. The potato is

A TROPICAL PLANT,

But its tuber producing quality is a northern modification of the plant, and in this quality it is improved by the cool summer of the north, and is successfully cultivated to the arctic circle, and with a decided improvemt in the quality of the crop and generally in its yield. The crop is sometimes injured by the intense heat of July and August, even at the 40th degree of latitude. The tendency of the tuber to degenerate in warm climates will suggest the precaution of occasionally renewing the crop by planting northern potatoes.

Mauling a "Stiff."

Quite a crowd collected in front of Brookins' store last night to see the inanimate form of a man packed out and dumped into an express wagon. Many remarks were made concerning the rough manner in which the corpse was handled, and Brookins, who seemed to be bossing the job, came in for a good many harsh criticisms. It was slanderous, the way that poor "stiff" was mauled around. The crowd sang out for Undertaker Sanders, Coroner Dickens and officer Avery, determined to give the cadaver a fair show to look respectable at the general resurrection, when somebody discovered that it was Brookins' old wooden Dutchman, which he was taking to Laycock's shop to get measured for a new suit of paint.

Enforcing an Old Order.

Years ago the Superintendent of the Central Pacific Railroad issued a decree that all persons in the employ of the Company send a photograph of themselves to his office. The order was enforced for a while but it gradually fell into disuse and for some time past no attention has been paid to it. Now it is to be enforced again and every railroad man must send his picture to headquarters. The object of making such a collection of photographs is said to be to enable the company to prevent men, who are discharged on a division of the road for violating the rules of the company, from getting employment on other divisions.

A MIXED CASE.

A Man Claims that he was Waylaid and Robbed of $530.

Last night, at precisely what time is not known, a man named Thomas Clark, who has been staging up country for some time, was brutally beaten about the head, apparently with rocks, He alleges that at the time this assault took place he was robbed of $530. He was doubtless drunk at the time, and his account of the affair is not very lucid. It is certain, however, that he was badly cut and bruised—his wounds are conclusive evidence of those facts; and it is also certain that he had some money—forty dollars at least—according to the evidence of persons who saw it in his hands last evening. But there are parties who say he had nothing of consequence, and, getting into a row with companions at a gambling table, was beaten by them. The truth of the matter will doubtless come out. It is well known that there are many loafers in town who have no apparent means of support, who would not scruple to knock a man down and rob him if the coast were clear. These stipendiaries of lewd women are altogether too numerous in Reno for the good of the community, and the sooner they realize that their presence here is intolerable, the better it will be for their personal safety.
